COLLECT THE SET

ED 002

AMSTRAD

SCREEN SHOTS SHOWN MAY BE A DIFFERENT MACHINE VERSION OF GAME.

Inside: Parents guide with easy to follow instructions, and a special pack of fun educational word cards that your child can use anytime.

NOW LEARNING CAN BE FUN

Thomas the Tank Engine's Fun with words has six colourful entertaining programs. Designed by educationalists, parents and a top team of programmers, with your child in mind.

Your child can learn at his or her own pace and what better way to hold their attention than to have their favourite character helping them along.

Friendly Learning have carefully constructed these delightful programs so no computer knowledge is required by the parent or child.

You do not have to first teach your child how to use a computer —everything is controlled by Joystick* (perfect for tiny hands)!

You have the option to select one of 4 levels and to enter your child's name so all the "reward" sequences will refer to your child directly by his or her name.

Thomas the Tank Engine's Fun with Words is for the under sevens.

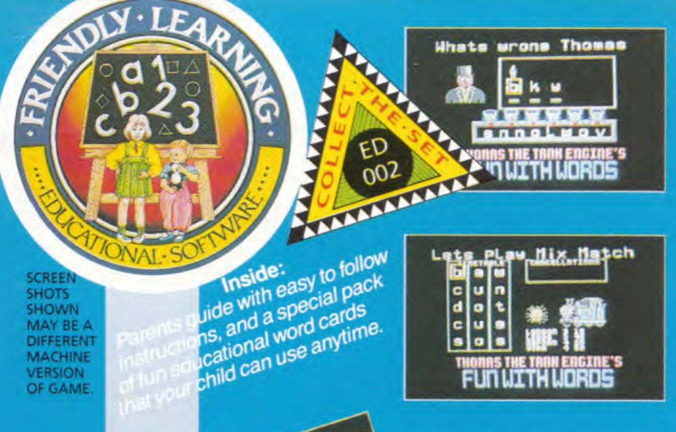

Give your child a head start; simply load the program—and away you go.

*Cursor keys can be used.
